

## Mine Your Own Business

**Your email** is an invaluable source of business contacts. Harvesting that valuable information is a daunting, if not impossible, task.

- Clicking into each email to extract the contact information is **not an option**, as that could take countless hours.
- Re-keying all the contact information from your email into your MS Outlook® Contacts or CRM system is **out of the question**.

## Let MTP Software help you

**With a single click, MTP Software's Mail Miner will automatically search your MS Outlook® emails to uncover your valuable business contacts.**

### It's easy as 1...2...3...

#### Step 1: Mine Emails

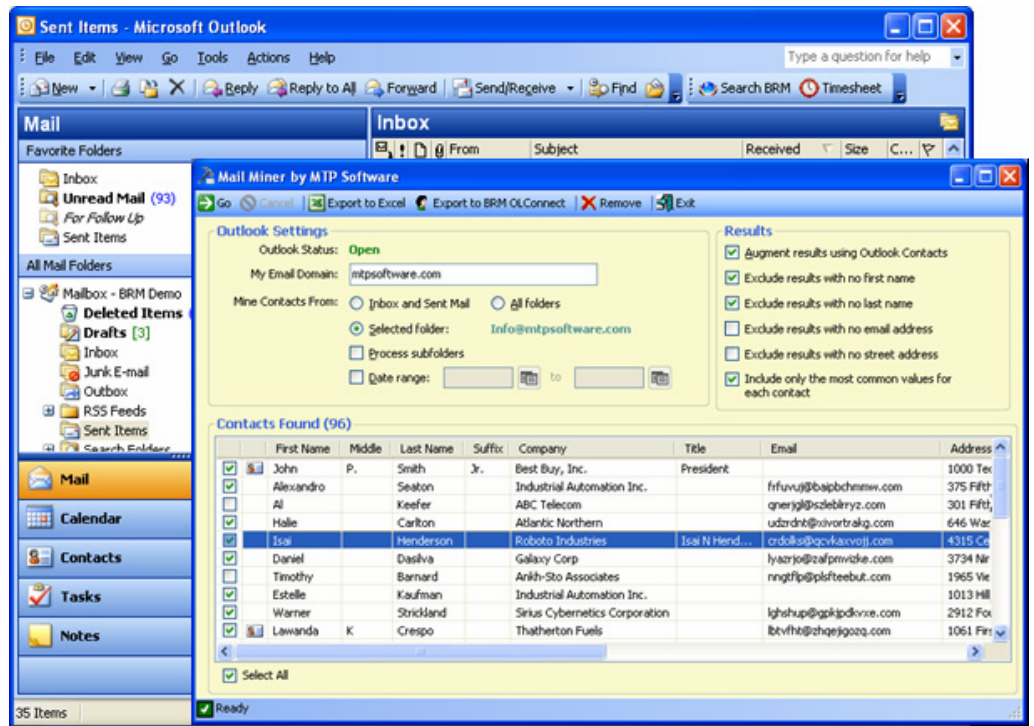

Every business professional conducts daily correspondence via email. Let Mail Miner sift through your emails to uncover important contacts.

#### Step 2: Scan Outlook Contacts

Do you have existing Outlook contacts? Use them too! Mail Miner will automatically scan your contacts and provide additional analysis to augment Mined contacts with your Outlook contacts.

#### Step 3: Review, Select & Sort

Mail Miner's robust, easy to use interface lets you review your contacts before exporting.
